

searching:

- ◇ Don't use too many words - if you aren't finding what you're looking for, try taking a few words out of your search.
- ◇ Don't use too few words - if you're looking for a one word title, give the search more info. Searching "help" will get you a mess of results. Searching "The Help" will get the movie and book to float to the top.
- ◇ Hyphens can be tricky - if a word is hyphenated and you leave the hyphen out with no space, your result may come up empty. Searching "the halfblood prince" returns no results, while "half-blood prince" or "half blood prince" will work.
- ◇ Punctuation is hit and miss - searching "Mr Poppers penguin" should get you the same results as "Mr. Popper's Penguins".
- ◇ You can browse using the advanced search without entering any search terms. Try checking DVD, switching it to your library and sorting by Acquisition Date: Newest First to see the most recent DVDs added to your library's collection.
- ◇ Misspelled words can throw off results - make sure you spelled it right!
